

**COVID-19 Weekly Status Report**  
**September 17, 2021 at 4:00 pm – September 24, 2021 at 4:00 pm**

The Clinch County School System continues to consult with the Georgia Department of Public Health and its Contact Tracing program as well as local medical professionals regarding known COVID cases and exposures. Impacted students and personnel are reported to DPH. Students and staff members who are fully vaccinated do not have to quarantine if they are close contacts, per CDC guidance. If students have been in close contact with another student or staff member who has tested positive, the parents of the close contact students are notified by phone.

Student and staff names and classrooms will not be identified in an effort to protect the privacy rights of students, staff, and their families. Quarantine information is provided for close contacts identified through school exposure. Each weekly update includes new cases reported and quarantines started during that time period. It is not a cumulative report.

While we are unable to disclose any identifying information, should you have questions or concerns please do not hesitate to reach out to us. The number to the BOE is 912-487-5321. You can also reach us via email at [clinchpr@clinchcounty.com](mailto:clinchpr@clinchcounty.com).

Let's all work together to help slow the spread of COVID-19 in Clinch County! Children who have a fever or are displaying symptoms of COVID-19 should stay home. Encourage students to wear a mask when social distancing is not possible and talk to your doctor about vaccination options.

**Remember the three "Ws" to reduce the risk of COVID-19**

**Wash Your Hands, Watch Your Distance, Wear a Mask/Shield**

1269	Student Enrollment
3	Students Reporting Positive Results*
12	Students Assigned to Quarantine due to Close Contact School Exposure
201	Total Staff
1	Staff Reporting Positive Results*
0	Staff Assigned to Quarantine due to Close Contact School Exposure

\*all students and staff who are positive are also in quarantine according to CDC guidance.
